The non-national-clustering rule:

In order to break-up any „national clustering“ within the grouping of the two-day meeting, we ask all participants to pay attention, not to cluster with your mates of your country. The pupils of the class 3a of the Theresianum insisted to use the event in Eisenstadt get in contact across borders and language barriers.

The group will be split up in subgroups at the guided tours in the Provincial Museum and for the presentation of the city tour developed by the Theresianum.

Guest arriving on March 30 are invited for a first city „sneak in“ and a pub visit. Sophie, Nathalie and Valentina will be your hosts.
